

Union City Municipal Authority
29 South Main Street, Union City, PA
February 24, 2011

The work session meeting of the Union City Municipal Authority was called to order at 8:27pm by Chairman Kolaja. Board members in attendance were: Dustin Kolaja, Bill Hinkle, and Frank Balog, Operations Manager- Dan Brumagin. Guest- Braden McCrillis.

Topics of Discussion

The board was brought up-to-date on the following:

1. Dan discussed the current water plant operational issues.
2. Dan discussed his intent to possibly proceed with using a chemical to clean the filter media that would help the filters remove more organics in the filtering process.
3. Dan stated the carbon machine issues that were discovered during the facility tour, are being fixed by employees.
4. Dan stated that when the weather breaks that they will be cleaning the settling basins.
5. Dan stated that they will be performing jar tests in the near future to determine which coagulant will perform best for organic removal.
6. Dan stated that they will be looking at slowing the water plant down towards the summer months if the test data shows that by doing so would improve the water quality.

Frank made a motion to adjourn the meeting. Bill seconded the motion. Vote- 3-0, motion carried.

Meeting adjourned at 8:35pm.
